

ABA Section of Antitrust Law

Civil Practice and Procedure

Presents

Class Action Fundamentals for Antitrust Litigators and Economists

May 5, 2016

12:30 p.m. to 2:00 p.m. (Eastern)

The certification stage of antitrust class actions is more contentious than ever, and the range of Rule 23 issues confronting antitrust litigators and economists has expanded in recent years. Staying on top of the legal and economic issues in Rule 23 cases can be a challenge for both plaintiffs and defendants, unless their counsel and experts are well versed in the fundamentals of class certification issues. An experienced class action lawyer and an economist, each with expertise in class certification matters, will offer an overview of these issues, with a particular emphasis on recent perspectives.
